CAPABILITY STATEMENT

Company Information

Technology Starts Here

Tecflow Inc., at our core, we are a group of people committed to providing our customers with affordable, high quality IT Services. We bring ideas to fruition. We provide IT solutions which help our clients realize IT goals, reduce cost and increase revenue. Our team is comprised of experienced staff with more than 20 years of information technology and contracting experience. Our status as a Economically Disadvantaged Woman Owned Small Business allows government agencies to obtain our services in an expeditious manner and can assist them in meeting annual EDWOSB contracting goals.

Tecflow Value Proposition

Tecflow's business approach is process driven, with a proven business and process model, a flexible approach, quality people and commitment to quality and value guaranteeing a high ROI on every dollar that our client spends.

Tecflow is an agile process oriented and systems driven organization. We leverage our experience in technology, domain and processes to deliver measurable benefits such as increase in productivity, decrease in effort overrun, increase in customer satisfaction and timely delivery. Improved alignment of processes with technology and people increasing customer satisfaction levels.

Tecflow has a strong track record of success and delivers time critical, scalable and cost effective solutions to its customers that deliver value and yield measurable ROI
